

About Us

DNP Imagingcomm America Corporation

We make the world's premier thermal transfer ribbon right here in America.

At DNP, we don't make thermal transfer ribbon, we craft it – with dedication, experience, the finest materials and stringent quality control. It's in our DNA. Over 25 years ago, DNP was one of the first companies to pioneer thermal transfer ribbon technology, and we've never stopped. If you think, "Blue leader, black ribbon, what's the difference?" The difference is DNP.

Products

We don't settle for "good enough." Neither should you.

DNP offers a wide range of wax, wax/resin, and resin thermal transfer printer ribbons. We've got the TTR to meet any application need. We know our customers depend on our quality products and impeccable service, so we manufacture the world's finest thermal transfer ribbons, backed by the industry's fastest delivery. You have a lot of choices when it comes to TTR. That's why we craft performance, confidence, reliability and uptime into every roll. No shortcuts. No excuses. No compromises.

Applications

If there's an industry that uses a barcode, chances are they're using DNP.

From automotive and chemicals to retail and security, our thermal transfer ribbons are being used in thousands of applications all over the world. Whatever your needs, we have the right TTR for the job. Abrasion, heat, solvent—we can take it. Paper, poly, vinyl—we can print on it. Durable, crisp, clean—we can perform. Go ahead, challenge us with your toughest application.

Support & Resources

We understand that choosing the right ribbon for the right application can often be a complex process.

Every ribbon application has its own distinct set of variables, each requiring special attention. DNP's testing laboratory is known as the quickest and most responsive in the industry. With over 75 thermal transfer printers, additional testing equipment, and on-hand technical service support from our laboratory experts, we can have a solution to your problem within 24 hours.
