ABOUT DNP

For over 40 years, Dai Nippon Printing Co., Ltd. has pioneered thermal transfer ribbon technology. With our dedication to innovation and excellence, DNP is known for its versatile product portfolio and exceptional service.

DNP Imagingcomm America (DNP) serves as the Barcode Operations Headquarters for the Americas. Located in Mount Pleasant, PA, this full-service facility employs mixing, coating, slitting, engineering, research and development, warehousing services, and our sales and support teams. Our dedicated employees work to maintain DNP's reputation for exceptional service, consistent quality, logistical expertise, and innovation.

We are an ISO 9001 and 14001 certified facility that prides itself on its ability to provide products and services that repeatedly meet customer and regulatory requirements.

DNP delivers quality thermal transfer ribbons, not just because you expect it but because we hold ourselves to a higher standard.

OUR SERVICES

DNP has a comprehensive portfolio of thermal transfer ribbons (TTR) to meet any application need. Our customers depend on our quality products and impeccable service, so we manufacture the world's finest TTR and offer the industry's quickest and most efficient order processing.

You have a lot of choices when it comes to TTR. That's why we craft performance, confidence, reliability, and uptime into every roll.

No shortcuts. No excuses. No compromises. That's DNP.

Our **Product Support Team** focuses on developing new products and product line support. We work closely with label and TTR printer manufacturers to stay knowledgeable about current trends in the market, new printers, and labelstocks.

We offer **complimentary private labeling** of custom box and roll labels to all our customers, large and small. We'll tailor labels to meet your specifications, including product name, description, company logo, and contact information.

As a DNP customer, you'll have a dedicated **Sales and Customer Service team**, providing the most impeccable and personal service. Your DNP team will work to understand your business, identify growth areas, and partner with you on flawless execution.

DNP's **Applications Laboratory** is known as the industry's quickest and most responsive. With 75 thermal transfer printers, state-of-the-art analytical equipment, and on-hand technical support from our experts, our team provides solutions to even your most difficult application challenges within 24 hours.

Our **eCommerce site** lets you easily place orders, track shipments, check pricing, and view your latest invoice. You'll also have access to **InkFinder**, our competitive cross-reference guide. It provides compatible DNP thermal transfer ribbons to replace thousands of supplier parts and formulations.

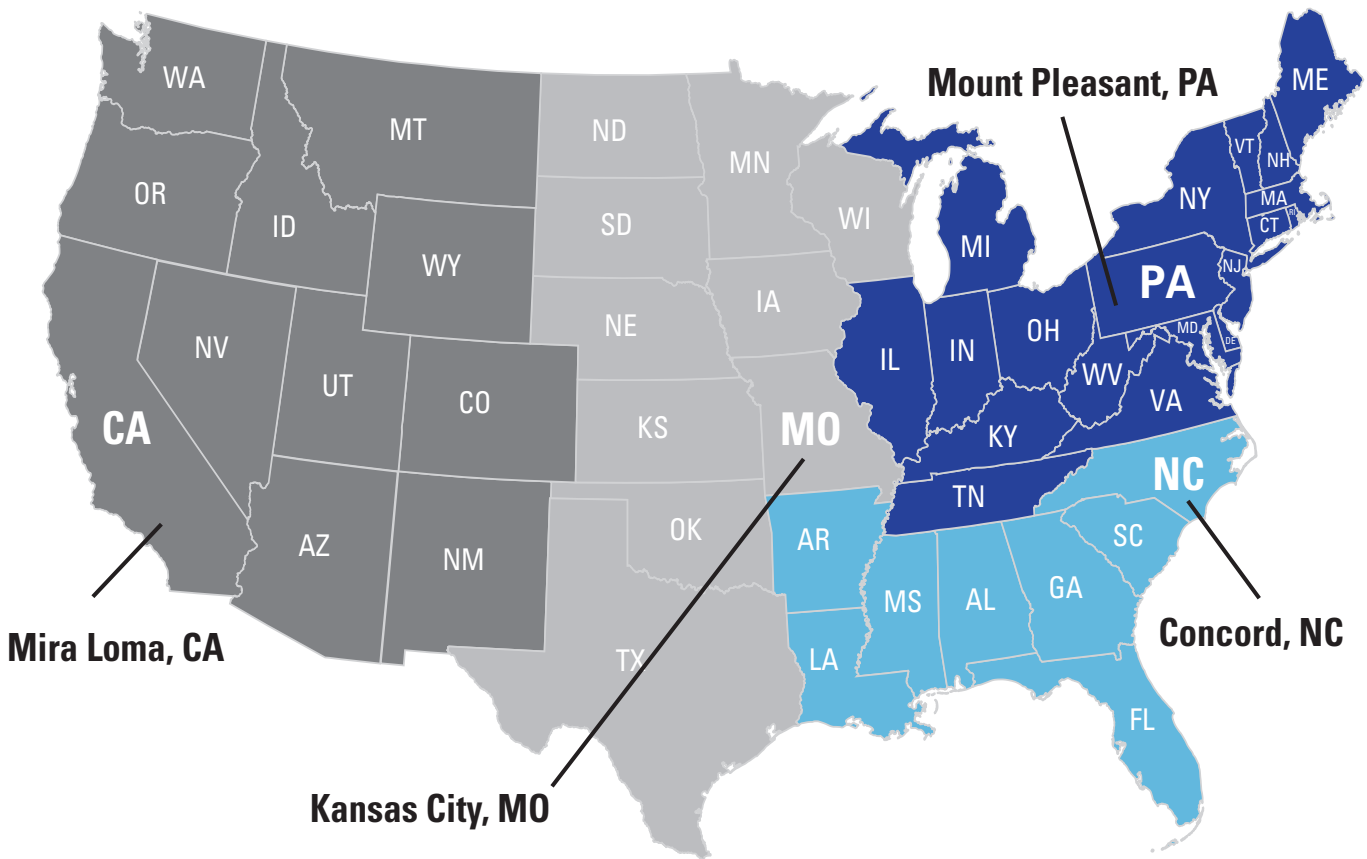

DNP proudly boasts our record of **superior quality** in product and operations. Our near-perfect order processing accuracy, consistent on-time delivery, and high product quality rankings make doing business with DNP a clear choice!

REGIONAL DISTRIBUTION CENTERS

Our distribution network gives you the advantage of industry-leading transit times on our most popular items to nearly every city in the U.S. We automatically route orders to the distribution point that provides the quickest transit time at the lowest cost. There is no extra charge for this service — just one of the many perks that come with being one of DNP's valued partners.

4 REASONS TO CHOOSE DNP

- 1** DNP is a trusted name in the industry, with decades of flawless performance as key supplier to OEMs, label converters and countless go to market partners.
- 2** We designed our expansive product offering to perform on a variety of substrates and overcome variations in label top coats and common environmental conditions such as dust, debris, and static.
- 3** DNP formulations have UL / CSA certification with numerous label materials from 3M, Avery Dennison, FLEXcon, Mactac, and more.
- 4** Our long-standing relationships with original equipment manufacturers (OEMs) allow us to know about product changes and launches before they go to market.
