

## DNP IAM America Pittsburgh Internal Posting

### Maintenance Technician

**12 hour rotational shift position following a 2-2-3 schedule**

The Maintenance technician installs, troubleshoots, maintains, and repairs machinery, equipment, physical structures, and pneumatic/electrical systems in the facility. You will also be completing work orders and utilizing computer software to document work.

The Maintenance Technician will be responsible for:

- Minor maintenance or repair of building.
- Responsible for supervision of outside contractors who are called in to do repair or maintenance.
- Lay out, install, adjust and maintain a variety of electrical equipment such as wiring, motors, switches, switchboards, and electrical mechanisms.
- Diagnose and remedy any electrical trouble quickly to avoid shut-downs.
- Diagnose and remedy trouble, determine necessary repairs, tear down and reassemble machines.
- Perform repair of machinery under direction of Maintenance Supervisor.
- Troubleshoot potential problems before machinery incurs additional expenses or production downtime.
- Inspect machinery and building at regular intervals.
- Assist in installation of new equipment as necessary.
- Perform other assigned tasks as directed.

The job requirements/qualifications for the Maintenance Technician position includes:

- Associates degree in a technical discipline or 5 years' experience
- Must be able to work from blueprints, manufacturer specifications, and wiring diagrams.
- Ability to use common precision measurement gages and equipment.
- Proven knowledge of two or more specific maintenance trades such as electrical, mechanical, etc.
- Technical knowledge of automated production machine equipment and maintenance required.
- Experience with slitting and coating process preferable
- Must be capable of working flexible hours to accommodate 24/7 manufacturing operations, including weekends, and on-call requirements
