

Wax Products

(page 1 of 2)

Half Inch Wax is formulated specifically to function within the temperature and speed range of 1/2" printers. This ribbon provides uniform coverage on a variety of substrates. It also incorporates technology designed to control and dissipate static charges and a backcoat proven to protect your printhead.

Recommended Applications

Recommended Substrates - coated paper, coated tag, uncoated paper, uncoated tag

MP Wax is specially formulated to print at a wide range of energy and speed settings, this wax provides an economical solution for everyday thermal transfer printing. It incorporates proven backcoat technology to protect your printhead. This wax product features a blend of ingredients that are combined in an ink that prints dark images and crisp, clean barcodes.

Recommended Applications

Recommended Substrates - coated paper, coated tag, uncoated paper, uncoated tag

TR3021 General Purpose Red Wax expands your possibilities while providing excellent print clarity and high smudge resistance when black just isn't enough. These ribbons are also specially formulated with an exclusive backcoat technology for printhead protection.

Recommended Applications

Recommended Substrates - coated paper, coated tag, polyethylene, polyolefin, polypropylene, synthetic paper, top-coated vinyl, Tyvek®, Tyvek Brillion®, uncoated paper, uncoated tag

TR3022 General Purpose Blue Wax expands your possibilities while providing excellent print clarity and high smudge resistance when black just isn't enough. TR3022 is halogen-free, and is specially formulated with an exclusive backcoat technology for printhead protection.

Recommended Applications

Recommended Substrates - coated paper, coated tag, polyethylene, polyolefin, polypropylene, synthetic paper, top-coated vinyl, Tyvek®, Tyvek Brillion®, uncoated paper, uncoated tag
