### REACH Conformance Declaration – Annex XIV / Annex XVII

DNP Imagingcomm America certifies that none of the substances listed in the ECHA Candidate List of substances of very high concern for Authorisation (SVHC), Annex XIV Authorisation List, or Annex XVII Substances restricted under REACH are present in our thermal transfer ribbon products in amounts exceeding the established thresholds. Conformance to these lists was determined through ingredient lists, MSDS, supplier certifications, and the manufacturer's knowledge of the product(s) and manufacturing processes.

We will continue to monitor the status of the respective lists as part of our on-going compliance activities, including the requirements under Article 33 of the REACH regulation to inform product recipients and consumers if an article contains more than 0.1% by weight per article of any substance that is added to the SVHC candidate list in the future.

This certificate is based upon the latest update published by the ECHA as listed below:

- 240 Substances of Very High Concern Candidate List Updated 23 January 2024
- REACH Annex XIV Authorisation List last updated 08 February 2024
- REACH Annex XVII Substances restricted under REACH last updated 12 December 2023
